

Ceeeyes Metals Reclamations Pvt Ltd.

VAR: SIM Technologies Pvt Ltd

Company:

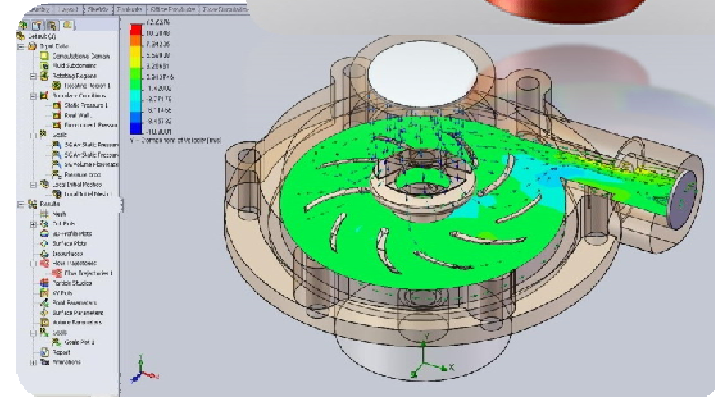

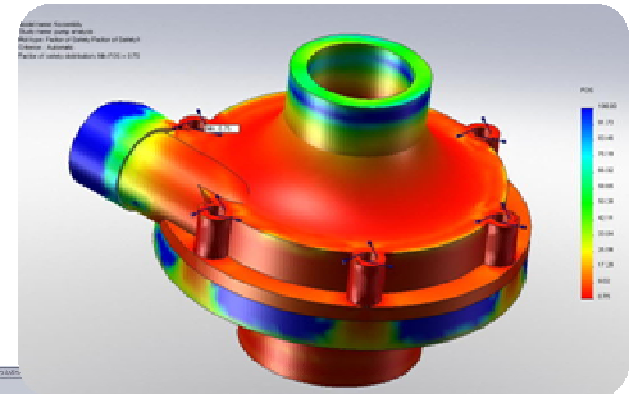

Ceeeyes Metals Reclamations Pvt Ltd established in year 1991, started Started out as a private firm with an objective to reclaim worn out ferrous and non ferrous parts and also it is the largest remanufacturer of camshafts for the Indian railways. The company is equipped with ultramodern facility including latest precision CNC machines with a good support of advance design software like SolidWorks & SolidWorks Simulation.

Challenge:

- Converting customer 2D drawing to 3D Design
- Optimization
- Pressure Testing

Key Benefits:

- Faster Return On Investment
- Reduction in rejection and Rework
- Improve Reliability of components
- Fast to Market (Less lead Time)
- DWG Editor helps in 2D to 3D conversion at faster rate of time
- Design right at first time
- Reduce cost on testing
- The usage of simulation testing Improves client confidence and helps in commanding a premium in product pricing.

"SolidWorks reduces design time, prototype cost, and the inbuilt analysis tool helps us to do products right at first time"

Mr. C.P.Shiva Sankar –Technical Director
