

■ **Company:**

Centroid Creative Hubb started in the year 2005, is a fast growing and a leading Industrial design consultancy in Chennai, India specializing in Automotive and product design services.

■ **Challenge:**

- Quick Designs Deliverables.
- Good Presentation.
- Good quality of Design Data for down stream works.

■ **Key Benefits:**

- About 80% of our consultancy work we operate in SolidWorks others we work on Client specific software's
- SolidWorks office professional is very cost effective and comes along with built in surface, Sheetmetal, animation and photorealistic renderings, which other CAD people sell as separate modules.
- Very amenable for presentation with e-drawings
- Fast Realization of Ideas
- Easy for making animations and explain the product better to the clients
- Photo realistic renderings with large texture library

“We have evaluated Pro/E but due to advanced features and competitive cost we choose SolidWorks software”

Mr.Ramesh Manickam –CEO
