

**SIM Technologies**, a leading provider of design, engineering, and training solutions, offers a comprehensive suite of products and services, including:

- **Desktop & Cloud Solutions:** Access industry-leading design software like **3DEXPERIENCEWorks**, **SOLIDWORKS** and **DraftSight** both on-premise and through cloud subscriptions.
- **Engineering Services:** Our experienced team provides design expertise to bring your ideas to life.
- **Education:** We're dedicated to supporting the academic community. Through our Academia program, we offer **3DEXPERIENCE SOLIDWORKS** licenses for colleges, students, research projects, and training centers.

## Desktop Solutions

SOLIDWORKS delivers easy-to-use tools that help conceptualize, create, validate, communicate, manage, and transform your innovate ideas into great product designs.

- Create fast and accurate designs, including 3D models and 2D drawings of complex parts and assemblies
- Utilize electrical solutions to simplify schematic and 3D design
- Design for cost and manufacturing with cost estimation tools and manufacturability checks
- Interact with team members and control revisions with standardized data management tools
- Eliminate errors and rework by using integrated motion and stress analysis tools

## Cloud Solutions

The future of product development is here! With the need to produce higher quality products faster and at lower cost, companies are looking to streamline their workflows.

With **3DEXPERIENCEWorks** solutions, concept to final assembly work can now happen concurrently, in one seamlessly integrated and managed system.

**Access your Data Any Time, Anywhere!**

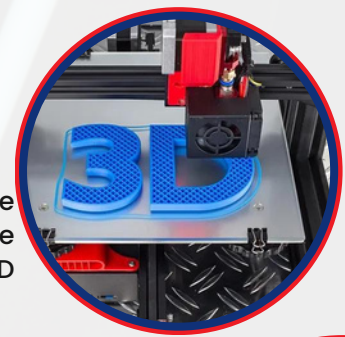

# Additive Manufacturing

We're passionate about empowering businesses to innovate and create like never before. That's why we offer a comprehensive suite of additive manufacturing solutions, including industry-leading 3D scanners and 3D printers.

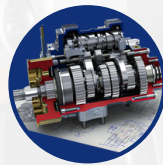

**3D Scanner :** Capture the intricate details of any physical object with our high-resolution 3D scanners. Our technology ensures precise digital replicas, perfect for reverse engineering, rapid prototyping, and creating custom-fit products.

**3D Printer :** Breathe life into your designs with our advanced 3D printers. Featuring cutting-edge technology and user-friendly interfaces, our printers deliver exceptional quality and reliability, allowing you to produce functional prototypes, bespoke parts, and innovative end-use products on-demand.

## Engineering Services

SIMTEK is a one-stop shop for all your 3D needs. We offer a comprehensive suite of services designed to streamline your workflow and empower your creativity

CAD Services

CAE Services

Reverse Engineering

Manpower & Deputation

## Academia

At SIM Technologies, we're committed to empowering the next generation of innovators. Our SOLIDWORKS Academia program equips colleges and students with the industry-leading design software and training needed for success. We offer:
