

- **Company:**
 - Rambal Limited.

- **Challenge:**
 - File sharing between plant locations was challenging, making it hard to manage file duplication and revision control.

 - The absence of a systematic approval process also limited collaboration among engineers on the same project.

- **Benefits:**
 - 3DEXPERIENCE Cloud storage has improved file collaboration across multiple environments.

 - File revisions and duplications are controlled by the 3DEXPERIENCE platform.

 - Approval process has been simplified and effective through the ENOVIA PLM.

Rambal Limited is recognized worldwide for its expertise in the production of automotive and non-automotive products.

“3DEXPERIENCE has made Collaboration easier within the organization and helps us to focus more on our goals”
