# Maintain a competitive edge

Cimatron software maintenance ensures ongoing access to the latest innovative developments and priority technical support for increased efficiency and a competitive edge.

Part of Sandvik Group

SIMTEK
Real Time. Real Results

An investment in Cimatron software maintenance ensures continuous access to technologies that help you reach your full potential and priority support that keeps you at your best.

### Access to innovation
Automatically receive new capabilities that save time and increase productivity.

### Exceptional technical support
Priority access to expert technical support services ensures that challenges are quickly resolved.

### Complimentary add-ons
Add-on bundles are available at no charge and are customized according to the Cimatron solution in use.

**Instant access to upgrades**

Our engineers continuously enhance our software with new capabilities and time-saving tools that improve productivity. Cimatron maintenance guarantees full access to the latest releases and service packs. Maintaining an investment in software maintenance also ensures ongoing compatibility with new versions of CAD programs and operating systems.

**Priority technical support**

Software maintenance includes priority access to technical support that helps quickly resolve challenges. Our expert team is standing by to help with licensing, menu commands, installation, general troubleshooting, and more.

**Complimentary software add-ons**

Customers who take advantage of the software maintenance program enjoy access to add-on bundles with additional functionality at no charge. These add-ons are customized according to the Cimatron solution in use.

**Online knowledge base**

The online Cimatron knowledge base is a helpful resource than can be used to learn capabilities provided with new software modules, train new engineers or programmers, and discover time-saving tips and tricks.

**Replacement of hardware keys** Hardware keys that are reported broken during the maintenance

agreement period can be replaced at no cost. The maintenance program also offers replacement keys at lower costs when keys are reported lost or stolen in conjunction with the submission of an official police report.
